Construction without compromise: the Bowers & Norman promise

Our exclusive contemporary community at Kirkby Lonsdale represents the culmination of years of professional expertise for construction experts, Bowers & Norman, the ambitious partners behind your dream home.

Bowers & Norman create the highest specification homes in the North West's most desirable locations.

Drawing on decades of professional expertise, we create beautiful bespoke homes that are perfectly planned and expertly executed, each one uniquely crafted to complement the surrounding landscape.

We're from the North West and passionate about preserving its heritage and landscape. So a hallmark of our high-quality homes is our sympathetic design aesthetic that respects and reflects their location.

We know that our homes are about more than four walls. They're about life and laughter. That's why we make homes that are generous with space, light and style; so you can make more of what matters...time, memories and mess.

Working closely with a highly talented and experienced local architect, we apply high design values to create homes that blend seamlessly into the surrounding landscape.

Quality materials echo local heritage and traditional vernacular influences to enhance the community you'll call home. Whilst high-specification interiors and luxe-as-standard finishes deliver the lifestyle you've dreamed of.

Come home to Highgate: luxury townhouses crafted with the finest contemporary materials

Come home to Highgate, an exclusive enclave of three eco-luxe town houses in the grounds of historic Cressbrook in Kirkby Lonsdale.

Inspired by the elegant Georgian and Victorian townhouses of Main Street, Mitchelgate and Bective Road, these four-bedroomed homes are a luxurious and eco-friendly evolution of a traditional style, updating it to the highest specification for the 21st century.

Located at the highest point of the leafy Cressbrook estate, the three-storey homes combine the finest natural materials with generous modern glazing and cutting-edge contemporary design, to maximise your connection with nature and natural light.

Where other builders are expanding on the boundaries of the town, Highgate sits squarely at the heart of the community, within easy walking distance of schools, shops and local amenities. There are no other plots left like these.

If you see your future in our historic town, Highgate may be your last chance to buy brand new within the traditional town boundaries.
